DESCRIPTION

This project funds preparation of local park master plans, concept plans, and park management plans; archaeological, engineering and environmental studies; topographic, natural resource, and forest conservation surveys; utility studies; feasibility studies, and facility plans. Facility plans produce well-reasoned project cost estimates based on preliminary design, i.e. one-third of final design and construction documents. Preliminary design includes topographic surveys, environmental assessments, traffic studies, site plans, schematic drawings, floor plans, elevations, quantity calculations, and cost estimates, as well as public participation. Facility planning is needed when the variables or options involved in the project do not support reliable independent cost estimating.

COST CHANGE

Increase due to the addition of FY15 and FY16 to this ongoing project.

JUSTIFICATION

2005 Land Preservation, Parks and Recreation Plan, approved by the Montgomery County Planning Board. There is a continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed facility projects. Future projects which result from facility planning programmed in this PDF will reflect reduced planning and design costs.

Individual AREA master plans.

FISCAL NOTE

FY10 current revenue reduced by \$30,000.

- * Expenditures will continue indefinitely.
